

PTT Conexión Macho T Lateral

Fluido de trabajo: Aire

Presión de trabajo máxima: 150 [PSI]

Presión de trabajo negativa: -29 [in Hg]

Temperatura de trabajo: [0 - 60] ° C

Material del manguito de liberación: Polioxido de Metileno

Material de los sellos: NBR

Material del cuerpo: Aleación de Niquel

Mangueras aplicables: Poliuretano y Nylon
