## **DATASHEET - NZM1-XHBR**

## Main switch assembly kit, handle red, size 1

NZM1-XHBR 266632

**EL Number** 4315578

(Norway)

Part no.

(Norway)	
General specifications	
Product name	Eaton Moeller series NZM operating element
Part no.	NZM1-XHBR
EAN	4015082666323
Product Length/Depth	190 millimetre
Product height	90 millimetre
Product width	90 millimetre
Product weight	0.786 kilogram
Compliances  Certifications	IEC UL/CSA ROHS conform  UL (Category Control Number DIHS) CSA (Class No. 1437-01) CSA certified UL489 UL listed IEC60947 CSA (File No. 22086)
	CE marking CSA-C22.2 No. 5-09 UL (File No. E140305)
Product Tradename	NZM
Product Type	Accessories
Product Sub Type	Operating element
Delivery program	
Туре	Accessory Main switch assembly kit
Features	Lockable With red door coupling rotary handle for use of switch as emergency switching off device to IEC/EN 60204-1, VDE 0113 part 1
Special features	External warning plate/designation label can be clipped on. For enhanced busbar tag shroud on the incomer side, please order IP2X protection against contact with a finger. Kit for use as a main switch
Frame	NZM1
Fitted with:	NZMXV4 extension shaft Black and yellow lightning symbol External warning plate/marking plate in German/English Extension shaft Door coupling rotary handle with rotary drive Padlock
Suitable for	Emergency stop Switch disconnector Power circuit breaker
Used with	N(S)1(-4) PN1(-4) NZM1(-4)
Technical Data - Mechanical	
Color	Red
Cover/door type	Door interlock not defeated in the locked OFF position. Door interlock on OFF with max. 3 padlocks After the door interlock is activated, must not be opened while on ON or TRIP. Mus only be opened on OFF Door interlock can be modified such that it can be defeated from the outside using a screwdriver Door interlock can only be switched ON when the door is closed
Degree of protection / NEMA enclosure type	IP66 4X. 12
Locking facility	Lockable on the switch in the 0 position Lockable on the 0 position on the handle using up to 3 padlocks With door interlock
Special features	External warning plate/designation label can be clipped on.

	For enhanced busbar tag shroud on the incomer side, please order IP2X protectior against contact with a finger. Kit for use as a main switch
Design verification as per IEC/EN 61439	
10.2.2 Corrosion resistance	Meets the product standard's requirements.
10.2.3.1 Verification of thermal stability of enclosures	Meets the product standard's requirements.
10.2.3.2 Verification of resistance of insulating materials to normal heat	Meets the product standard's requirements.
10.2.3.3 Resist. of insul. mat. to abnormal heat/fire by internal elect. effects	Meets the product standard's requirements.
10.2.4 Resistance to ultra-violet (UV) radiation	Meets the product standard's requirements.
10.2.5 Lifting	Does not apply, since the entire switchgear needs to be evaluated.
10.2.6 Mechanical impact	Does not apply, since the entire switchgear needs to be evaluated.
10.2.7 Inscriptions	Meets the product standard's requirements.
10.3 Degree of protection of assemblies	Does not apply, since the entire switchgear needs to be evaluated.
10.4 Clearances and creepage distances	Meets the product standard's requirements.
10.5 Protection against electric shock	Does not apply, since the entire switchgear needs to be evaluated.
10.6 Incorporation of switching devices and components	Does not apply, since the entire switchgear needs to be evaluated.
10.7 Internal electrical circuits and connections	Is the panel builder's responsibility.
10.8 Connections for external conductors	Is the panel builder's responsibility.
10.9.2 Power-frequency electric strength	Is the panel builder's responsibility.
10.9.3 Impulse withstand voltage	Is the panel builder's responsibility.
10.9.4 Testing of enclosures made of insulating material	Is the panel builder's responsibility.
10.10 Temperature rise	The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices.
10.11 Short-circuit rating	Is the panel builder's responsibility. The specifications for the switchgear must be observed.
10.12 Electromagnetic compatibility	Is the panel builder's responsibility. The specifications for the switchgear must be observed.
10.13 Mechanical function	The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.

## **Technical data ETIM 9.0**

16CHIIICAI UATA ETTIVI 5.0		
Low-voltage industrial components (EG000017) / Handle for power circuit breaker (EC000229		
Electric engineering, automation, process control engineering / Low-voltage switch technology / Circuit breaker (LV < 1 kV) / Handle for switch devices (ecl@ss13-27-37-04-14 [AKF012019])		
With restart blockage	No	
With key lock	No	
Padlock locking	Yes	
Colour	Red	
Suitable for emergency stop	Yes	
With extension shaft	Yes	
Suitable for power circuit breaker	Yes	
Suitable for switch disconnector	Yes	
Degree of protection (NEMA)	4X, 12
